Request for Proposals

RFP794 - ARC Federal Public Affairs Services

Addendum No. 1

This amendment is hereby modified as follows:

1. Answers to submitted questions are listed below.

Question #1	Could the ARC anticipated timeline for proposal evaluation, finalist interviews or presentations (if applicable), Commission consideration and selection of a preferred respondent?
Answer #1	ARC anticipates to complete proposal evaluations by December 18. Finalists may be invited to interview the week of January 11. Final selection is anticipated the week of January 19.
Question #2	Page 3 of the solicitation asks for the firm's most recent audit and any ongoing or settled findings. As a matter of firm policy, we do not submit audits to outside parties. Would the ARC accept a financial stability statement as sufficient to meet this requirement? If not, please tell us what additional information would satisfy the requirement.
Answer #2	If your company is unable to provide its most recent audited financial statements, ARC will accept either of the following documents as an alternative: - Most Recent Tax Return: A copy of your company's most recently filed tax return. - Bank Verification Letter: A notarized letter from your company's banking institution confirming that the company is financially sound and in good financial standing. Either document may be submitted in lieu of the most recent audited financial statements to demonstrate your company's financial stability and ability to meet its contractual obligations.

All other conditions remain in full force and effect.
